

Senior Estates Surveyors

Senior Estates Surveyors. Permanent Opportunities. UK-wide.

We currently have several available positions for Senior Estates Surveyors. For the right people, these are exciting opportunities to join the UK's largest and longest established niche firm of telecoms property specialists (acting for landlords).

You will be responsible for the day-to-day and professional estate management tasks relating to your own client accounts, responsible for client care, overall reporting and processes, and for training / assisting less senior team members. You will deal with a varied caseload including rent reviews, renewals, variations, valuations, New Code cases, lease terminations, audits and inspections.

The successful candidates are likely to have experience working in the specialist telecoms property sector (for either operators, landlords, or both!). Being a Chartered Surveyor will help but it is not essential.

A competitive package and flexible terms are on offer for the right candidates. To apply, please submit your CV and covering correspondence to careers@cellcm.com
